PROFESSIONAL SUMMARY

Informatics Engineering graduate with strong expertise in developing scalable web applications using modern frameworks (React, Next.js, Angular, React Native, Svelte, Tailwind CSS). Experienced in architecting functional systems, streamlining data integrations, and building highly interactive, user-centric interfaces. Highly organized and dedicated to delivering efficient, robust software solutions that align perfectly with business operational needs.

EDUCATION

Universitas Muhammadiyah Prof. Dr. Hamka (UHAMKA) Sep 2021 - Feb 2026

Bachelor of Engineering in Informatics Engineering

- GPA: 3.39 / 4.00

WORK EXPERIENCE

Rutan Kelas IIB Pandeglang Aug 2026 – Feb 2027

IT Operator / Intern

- Managed and maintained IT infrastructure and hardware systems, including diagnosing, troubleshooting, and repairing office printers, CCTV security monitors, and network components to ensure operational continuity.
- Provided comprehensive administrative, logistical, and public service support, assisting with institutional visitor management systems, food inspection posts, financial document processing, and facility maintenance logistics.
- Refreshed and developed internal web-based applications and digital portals utilizing PHP, Laravel, and Blade templates to optimize operational workflows and digital innovation services within the institution.

Freelance Fullstack Developer Feb 2026 - Present

Independent

- Engineered custom, highly responsive web applications for diverse clients utilizing a modern tech stack, including React.js, Next.js, Laravel, Angular, Svelte, and Supabase.
- Collaborated directly with stakeholders to analyze business requirements, translating them into scalable and highly efficient software solutions.
- Optimized database architectures, integrated third-party APIs, and maintained system infrastructure to ensure maximum application performance and security.

LPPM UHAMKA Mar 2024 – Mar 2025

Front-End Developer / IT Intern

- Developed and maintained responsive web interfaces using Next.js, JavaScript, and Tailwind CSS.
- Collaborated effectively with cross-functional teams to integrate APIs and manage data fetching.
- Demonstrated strong time management by consistently meeting tight project deadlines for a large-scale university application (Super'App).
- Provided technical support and troubleshooting during the development and deployment phases.

Vocasia Aug 2023 – Dec 2023

Front-End Developer (Independent Study)

- Built modern web interface components using JavaScript, Tailwind CSS, and React.js.
- Applied component-based architecture to improve efficiency, scalability, and code maintainability.
- Integrated API data and visualized it into interactive charts to facilitate data analysis.

- Worked collaboratively using agile methodologies to design and release web applications, demonstrating strong communication skills.

PROJECTS & PORTFOLIO

QHSE SUPER APP | PT. PP (Persero) Tbk Jun – Jul 2026

- Spearheaded the end-to-end development of a Quality, Health, Safety, and Environment (QHSE) web application for a major state-owned construction and EPC enterprise.
- Architected the complete system lifecycle independently, encompassing requirements analysis, UML diagramming, UI/UX design, and complex database modeling.
- Engineered and deployed four core operational modules: Inspection, Equipment Monitoring, Medical Records, and Passport/Clearance.

  Tech Stack: React.js, Tailwind CSS, Supabase.

DOGMA (News & Media Portal) | DOGMA Community News Center May – Jun 2026

- Developed a dynamic news and media portal with role-based access control for Super Admins and Authors.
- Optimized SEO with dynamic meta tags and automated deployment to InfinityFree using GitHub Actions.

  Tech Stack: Laravel, Git, GitHub Actions, System Administration.

Decision Support System (DSS) | BSDM UHAMKA Jan 2026

- Built an internal management application for HR to evaluate staff performance using the Simple Additive Weighting (SAW) method.
- Designed a system that processes criteria, normalizes values, and automatically ranks top employees to minimize subjectivity.

  Tech Stack: Laravel (PHP), MySQL, Tailwind CSS.

Digital Branding & Construction App | CV Rayyan Karya & Ahmad Jaya Group Jul 2025 – Dec 2025

- Produced comprehensive professional branding materials and cinematic promotional videos to drive marketing initiatives, alongside managing core business documentation.
- Generated high-fidelity construction and logistics project visualizations leveraging advanced Artificial Intelligence (AI) technologies.
- Architected and developed a dedicated Android mobile application to streamline real-time project monitoring and tracking.

  Skills & Tech Stack: AI Content Generation, Digital Branding, Kotlin, Android Studio, Google Studio.

Public Health Education Content Creator | Mekarsari Community Health Center Jul 2025

- Partnered with public health officials to design and produce highly engaging Public Service Announcement (PSA) videos.
- Transformed complex medical information and health counseling guidelines into accessible, interactive visual content for the general public.

  Skills: Multimedia Content Creation, Public Communication.

Super Apps | LPPM UHAMKA Mar 2024 – Mar 2025

- Contributed to the creation of interface modules for the university's digital ecosystem platform (SIMPEG, SIAKAD, SIMAKIP).
- Developed a centralized monitoring hub for staff daily activities, performance visualization, and real-time organizational metrics reporting.

  Tech Stack: Next.js, React.js, Tailwind CSS, System Integration.

StuntGuard | Final Project Study Independent Nov 2023 – Dec 2023

- Developed a digital health solution to monitor child growth and nutrition based on anthropometric data.
- Implemented interactive charts and visual indicators for early detection of stunting indications, specifically designed for non-medical users.

  Tech Stack: React.js, JavaScript, Tailwind CSS.

ORGANIZATIONAL EXPERIENCE

Chairman of Student Association Chapter – UHAMKA Apr 2024 – Apr 2025

- Directed internal communications and fostered seamless coordination across all organizational members.
- Orchestrated the successful execution of core operational programs, including the flagship Branch Conference (Muscab).
- Applied practical leadership and managerial principles acquired through formal Organizational Management Training (LMO) to drive team effectiveness.

QUALIFICATIONS & TECHNICAL SKILLS

Programming Language	C++, JavaScript, Typescript, Python
Front-End Development	HTML, CSS, JavaScript, Tailwind, React.js, Next.js, Angular, Svelte, Laravel, Django
Backend & Database	MySQL, PostgreSQL, Go
Tools & Libraries	Git, Vite, Axios, Redux, Ant Design, Chart.js
Soft Skills & Others	Responsive Web Development, REST API Integration, State Management, Component-Based Architecture, Problem Solving, Teamwork
