PROFESSIONAL SUMMARY

Recent Informatics Engineering graduate (GPA 3.39/4.00) with over a year of relevant technical experience in software development, IT operations, and digital system integration. Known for diligence, honesty, and delivering the best service. Possesses solid industry knowledge and technical skills in troubleshooting, managing databases, and developing responsive digital solutions. Demonstrates excellent communication and interpersonal skills proven through collaborative teamwork and leadership roles. Highly organized with strong time management abilities, ready to provide excellent IT support and elevate cultural excellence in a hospitality environment.

EDUCATION

Universitas Muhammadiyah Prof. Dr. Hamka (UHAMKA)

Sep 2021 - Feb 2026

Bachelor of Engineering in Informatics Engineering

- GPA: 3.39 / 4.00

WORK EXPERIENCE

LPPM UHAMKA

Mar 2024 - Jan 2025

Front-End Developer / IT Intern

- Developed and maintained responsive web interfaces using Next.js, JavaScript, and Tailwind CSS.
- Collaborated effectively with cross-functional teams to integrate APIs and manage data fetching.
- Demonstrated strong time management by consistently meeting tight project deadlines for a large-scale university application (Super'App).
- Provided technical support and troubleshooting during the development and deployment phases.

Vocasia

Aug 2023 - Dec 2023

Front-End Developer (Independent Study)

- Built modern web interface components using JavaScript, Tailwind CSS, and React.js.
- Applied component-based architecture to improve efficiency, scalability, and code maintainability.
- Integrated API data and visualized it into interactive charts to facilitate data analysis.
- Worked collaboratively using agile methodologies to design and release web applications, demonstrating strong communication skills.

PROJECTS & PORTFOLIO

DOGMA (News & Media Portal)

May - Jun 2026

- Developed a dynamic news and media portal with role-based access control for Super Admins and Authors.
- Optimized SEO with dynamic meta tags and automated deployment to InfinityFree using GitHub Actions.

Tech Stack: Laravel, Git, GitHub Actions, System Administration

Decision Support System (DSS) for Outstanding Employee Selection

Jan 2026

- Built an internal management application for HR to evaluate staff performance using the Simple Additive Weighting (SAW) method.
- Designed a system that processes criteria, normalizes values, and automatically ranks top employees to minimize subjectivity.

Tech Stack: Laravel (PHP), MySQL, Tailwind CSS

Digital Branding & IT Support – CV Rayyan Karya & Ahmad Group

2025 - 2026

- Designed and produced professional branding materials, managed business documents, and created cinematic promotional videos.
- Provided digital asset management and utilized Artificial Intelligence (AI) technologies for high-quality project visualizations.

Skills: Digital Asset Management, AI Content Generation, Technical Problem Solving

Super'Apps - Staff Performance Management Dashboard 2024 - Early 2025

- Contributed to the creation of interface modules for the university's digital ecosystem platform (SIMPEG, SIAKAD, SIMAKIP).
- Developed a centralized monitoring hub for staff daily activities, performance visualization, and real-time organizational metrics reporting.

Tech Stack: Next.js, React.js, Tailwind CSS, System Integration

StuntGuard - Nutrition Monitoring & Early Stunting Detection App 2023

- Developed a digital health solution to monitor child growth and nutrition based on anthropometric data.
- Implemented interactive charts and visual indicators for early detection of stunting indications, specifically designed for non-medical users.

Tech Stack: React.js, JavaScript, Tailwind CSS

ORGANIZATIONAL EXPERIENCE

Chairman of Student Association Chapter – UHAMKA Apr 2024 - Present

- Lead and manage communication, ensuring solid coordination among all organizational members (Highlights excellent interpersonal skills).
- Coordinate and successfully execute major work programs, demonstrating strong organizational and time management abilities.

QUALIFICATIONS & TECHNICAL SKILLS

IT & Technical Skills	Hardware/Software Troubleshooting, Network Basics, Web Application Management, Database Administration (MySQL)
Programming & Web	PHP, JavaScript, HTML5, CSS3, Laravel, Next.js, React.js, Tailwind CSS
Tools & Version Control	Git, GitHub Actions, Vite, Axios, REST API Integration
Soft Skills	Excellent Communication, Interpersonal Skills, Time Management, Organizational Abilities, Hospitality & Best Service Oriented
